New AMERICAN OUTDOOR GRILLS

New Gas Conversion Kits for “L” Series and “T” Series Portable Grills

CK-41-Nat & CK-42-Nat

The new American Outdoor Grill (AOG) “T” Series and “L” Series grills continue to grow in popularity. As in previous models, the AOG **Portable** Grills are shipped for use with Propane Gas. If the grill is to be used with Natural Gas, a Conversion Kit and Orifice Kit are required, which are purchased separately. (Note: built-in models are shipped for use with Natural Gas and include the parts necessary to convert to Propane gas).

Two Conversion Kits are available; the **CK-41-Nat**, (\$144.00 retail), which includes a Natural Gas Hose with Quick Disconnect and the **CK-42-Nat**, (\$44.00 retail), which does not include the hose and is used when the gas supply will be hard piped to the unit. Both CK-41-Nat and CK-42-Nat include the regulator and adaptor fitting.

The Orifice Kits are dependent on the Model and Size of the AOG Grill (See chart below). The retail price listed below covers “L” & “T” Series as well as units Pre-2015.

Orifice Kit Required For Gas Conversion*				
Grill Size	Grill Series			Retail Price
	“L” Series	“T” Series	Pre-2015	
24”	24-B-51	24-B-52	24-B-53	\$12.00
30”	30-B-51	30-B-52	30-B-53	\$16.00
36”	36-B-51	36-B-42	36-B-53	\$16.00

Orifice Kits CK-1-Nat; CK-2-Nat and CK-2-LP are not compatible with the 2015 AOG Models and will soon be discontinued.

*All necessary orifices are included in kit to convert main burners, back burner and side burner.

The Conversion Kit Instructions are included with this Technical Bulletin.
